

# RIX WIKI

The **Rix Wiki** pilot project is aimed at Children and Young people 0-25 who have one or a combination of the following diagnosis:

- Autism
- Learning disabilities
- Complex physical health needs where a Personal Health Budget has been allocated

These young people may have more than one service involved in their care such as Education, Health and Social care.

**Rix Wiki** is an online portal to share your story, vital information, progress reviews and other important information, etc; personal to you. You can share your **Rix Wiki** with people who work with you and your family, to help them to learn more about you and understand how to best support you and reach your **GOALS!**

Shane's story is an example of how **Rix Wiki** helped a young man, his family, and his teachers.

You can find out more on the following link: <https://Wiki.RixWiki.org/elrccg/home/organisational-llr>

We believe **Rix Wiki** will benefit young people and their families. The licences will last until July 2022. There is no cost for having a Rix Wiki through the pilot project as we are offering licences **free of charge**.

Please do get in touch if you require any further information or support in this. We can send you a registration form, links to the **Rix Wiki** website to help you set up your **Rix Wiki**.
